SUBJECT
AUTHOR
CONTENTS FOR VOLUME 90

Index of Subjects

Volume 90, 1978

Acantholysis
epidermal, 345
Actomyosin
mesangial, 71
Alcohol
and liver mitochondrial injury, recovery from, 325
Allergy
atopic, 249
relation to immunity, 274
Amniotic fluid
deficiency of, and fetal lung growth, 779
Amyloidosis
and renal lesions in LLC mice, 381
Anaphylactic reactions
immunopathology of, 248
Anemia
hemolytic, immunopathology of, 228
and hemopoiesis in S1/S1^{d} mice, 633
Animal Models of Human Disease
bronchiolo-alveolar cell carcinoma, 783
Chédiak–Higashi syndrome, 533
cigarette smoking effects, 281
giardiasis, 529
Hashimoto's thyroiditis, 285
Potter's syndrome, 779
Arthritis
rheumatoid, immunopathology of, 242
Arthus reaction
immunopathology of, 232
Aschoff bodies
in rheumatic fever, 245
Aspergillosis
allergic factors in, 251
Asthma
immunopathology of, 250
Atopic reactions
immunopathology of, 249
ATPase
calcium-activated, carbon tetrachloride affecting, in liver plasmalemma, 145
Autoallergic diseases
immunopathology of, 262

Basophils
and cutaneous hypersensitivity, 259
BCG lesions
enzymes in fluid from, 583
Berylliosis
immunopathology of, 272
Bronchi
dysplastic, neuroendocrine cells in, 49
Cadmium aerosol
lung injury from, 89
Calcinosis
cardiac, dystrophic, 173
Calcium
and ATPase activity in liver plasmalemma after carbon tetrachloride, 145
Carbon tetrachloride
and calcium ATPase activity in liver plasmalemma, 145
Centrifugation
zonal, for isolation of cell lines, 33
Chédiak–Higashi syndrome
animal model of, 533
Chemotactic factors
affecting leukocytes, 537
Chemotherapy
in acute lymphocytic leukemia, 521
Clofibrate
hepatic effects of, 435
Collagen diseases
immunopathology of, 238
Complement
activation of, 227
Coombs' tests, 230
Coronary artery disease (*see* Infarction, myocardial)
Crohn's disease
immunopathology of, 273

Dermatitis herpetiformis
immunopathology of, 247
Dermatomyositis
immunopathology of, 244
Diabetes
immunopathology of, 225
Diet
and dystrophic cardiac calcinosis in mice, 173
Docosenoic acids
dietary, morphologic effects of, 551

Ecotaxopathy
in lymphoreticular malignancy, 497
Edema
angioneurotic, 255
Electron microscopy
of epidermal acantholysis, 345
of glomerular hypertrophy after subtotal nephrectomy, 201
of ischemic myocardium after reperfusion, 423
of Legionnaires' disease organism, 701

of liver in heatstroke, 609
with spectrometry, in myocology, 23
Encephalitides
viral, 261
Enteritis
regional, immunopathology of, 273
Enzymes
analysis in cell lines, 33
extracellular hydrolytic, in dermal tuberculous lesions, 583
hepatic, hypolipidemic drugs affecting, 435
Erythema marginatum
in rheumatic fever, 245
Erythema multiforme
immunopathology of, 247
Erythema nodosum
immunopathology of, 246
leprosum, 271
Erythroblastosis fetalis
immunotherapy of, 231
Erythrocytes
antibodies to, 228
hemopoiesis in S1/S1^d anemic mice, 633
Ethanol
and liver mitochondrial injury, recovery from, 325

Ferritin
and lymphocyte migration in Hodgkin's disease, 497
Fetus
amniotic fluid deficiency affecting, 779
as graft, 266
Fibroblasts
migration of, 159
surface antigen in kidneys, 71
Fibrosarcoma
migration of cells in, 159
Fungi
microanalysis studies of, 23

Gangliosidosis
feline G_{M2} type, 723
Genetics
and dystrophic cardiac calcinosis in mice, 173
and immune response, 762
Ghon complex
in tuberculosis, 268
Giardiasis
animal model of, 529
Glomerulonephritis
immunopathology of, 234
Golgi complex
of neuroendocrine cells in dysplastic bronchi, 49
Goodpasture's disease
immunopathology of, 237
Graft vs host reactions, 267, 760 (*see also* Transplants)
Granuloyctes
isolation by zonal centrifugation, 33
Granulomatous reactions
and hypersensitivity, 268

Hay fever
immunopathology of, 251
Heart
docosenoic acids affecting, 551
dystrophic calcinosis in mice, 173
myocardial infarction (*see* Infarction, myocardial)
Heatstroke
liver in, 609
Hemopoiesis
in S1/S1^d anemic mice, 633
Henoch–Schoenlein syndrome
immunopathology of, 232
Hepatitis
HBsAg in periarteritis nodosa, 619
viral, 262
Hepatoma
in sand rats, 399
Herpes simplex virus
replication in leukemic leukocytes, 187
Histocompatibility complex, 735
in man, 746
in mouse, 738
in rat, 752
Hodgkin's disease (*see* Leukemias and lymphomas)
Hypersensitivity
cellular or delayed, 256

Immunization
maternal, and antibody response in offspring, 317
Immunofluorescence
of glomerular antigens, 71
Immunogenicity
in plasmacytoma cell lines, 565
Immunology
and classification of lymphomas, 461
hepatitis B surface antigen in periarteritis nodosa, 619
and major histocompatibility complex, 735
Immunopathology, 215
anaphylactic or atopic reactions, 248
cellular or delayed hypersensitivity, 256
cytotoxic or cytolytic reactions, 227
granulomatous reactions, 268
neutralization or inactivation reactions, 223

and relation of allergy to immunity, 274
toxic complex reactions, 232
Immunotherapy
in allergies, 252
Indomethacin
and Shwartzman reaction, 7
Infarction, myocardial
experimental, in rat, 57
and reperfusion with calcium-free blood, 423
variability in size of, 363
Iron
handling in lymphorecticular malignancies, 497

Kidney
glomerular antigens in, 71
glomerular hypertrophy after subtotal nephrectomy, 201
glomerulonephritis, 234
lesions with amyloidosis in LLC mice, 381
Michaelis–Gutmann bodies in malakoplakia tissue, 411
transplants of, 265

Legionnaires' disease
morphology of organism in, 701
Leprosy
immunopathology of, 269
Leukemias and lymphomas, 447
B-cell types, 473
in childhood, 487
herpes simplex replication in leukemic leukocytes, 187
and models of ecotaxopathy, 497
morphology and immunology of, 461
surface markers in, 451
T-cell types, 475
therapeutic considerations in ALL, 521
U-cell types, 476
Leukocytes
antibodies to, 228
leukemic, herpes simplex virus replication in, 187
nitroblue tetrazolium–vitamin E mixture affecting PMNs, 659
Lipids
docosenoic acids in, morphologic effects of, 551
hepatic effects of hypolipidemic drugs, 435
Liver
calcium ATPase activity after carbon tetrachloride, 145
enzyme activity after hypolipidemic drugs, 435
in heatstroke, 609
hepatitis B surface antigen in periarteritis nodosa, 619
hepatoma in sand rats, 399
mitochrondria recovery from ethanol-induced injury, 325
viral hepatitis, 262
Lung
allergic alveolitis, 273
experimental bronchiolo-alveolar cell carcinoma, 783
fetal growth in amniotic fluid deficiency, 779
injury from cadmium aerosol, 89
organism of Legionnaires' disease, 701
Type 1 alveolar lining cells of, 99, 123
Lupus erythematosus
immunopathology of, 240
Lymphocytes
B-cell lymphomas, 473
and cell-mediated immunity, 258
chemotactic factors affecting, 537
and histocompatibility loci, 758
isolation by zonal centrifugation, 33
T-cell lymphomas, 475
Lymphokines
and delayed hypersensitivity, 259
Lymphoma (*see* Leukemias and lymphomas)

Macrophages
and hemopoiesis in S1/S1^d anemic mice, 633
secretory activity of, and inflammation, 583
Malakoplakia
Michaelis–Gutmann bodies in, 411
Mast cells
mediator relase by, 253
Michaelis–Gutmann bodies
in malakoplakia, 411
Microanalysis
of Michaelis–Gutmann bodies in malakoplakia, 411
in mycology, 23
Mitochondria
liver, recovery from ethanol-induced injury, 325
Monocytes
isolation by zonal centrifugation, 33
Muscle
docosenoic acids affecting, 551
Myasthenia gravis
immunopathology of, 225
Mycology
microanalysis in, 23
Myeloma cultures
loss of oncogenicity in, 565
Myocardial infarction (*see* Infarction, myocardial)

Nafenopin
hepatic effects of, 435
Neoplasia
DMBA-induced pancreatic carcinoma, 645
experimental bronchiolo-alveolar cell carcinoma, 783
hepatoma in sand rats, 399
induction in host-versus-graft disease, 675
leukemias and lymphomas, 447
loss of oncogenicity in plasmacytoma cell lines, 565
migration of fibrosarcoma cells, 159
and neuroendocrine cells in dysplastic bronchi, 49
pancreatic ductal, islet cells in, 295
Neuroendocrine cells
in dysplastic bronchi, 49
Nitroblue tetrazolium
mixture with vitamin E affecting PMNs, 659
NZB mice
immunopathology in, 238

Oligohydramnios
and Potter's syndrome, 779

Pancreas
islet cell changes in ductal neoplasms, 295
tubular complexes in DMBA-induced carcinoma, 645
Parasitic infestations
immunopathology of, 271
Pemphigus
autoantibodies inducing acantholysis, 345
immunopathology of, 246
Periarteritis nodosa
hepatitis B surface antigen in, 619
immunopathology of, 240
Peroxisomes
hepatic, hypolipidemic drugs affecting, 435
Plasmacytoma
loss of oncogenicity in cell lines of, 565
Platelets
antibodies to, 228
Polyps
nasal, allergic factors in, 251
Potter's syndrome
animal model of, 779
Pregnancy
amniotic fluid role in congenital anomalies, 779
and fetus as graft, 266
immunization against, 226
immunization in, and antibody response in offspring, 317
and immunotherapy of erythroblastosis fetalis, 231
smoking in, affecting infants, 289
Purpura
vascular, 232

Reaginic antibody
skin test for, 252
Rheumatoid diseases
immunopathology of, 238
Rheumatoid factor, 242
Rheumatic fever
immunopathology of, 245

Sarcoidosis
immunopathology of, 272
Scleroderma
immunopathology of, 243
Serum sickness
immunopathology of, 233
Sex factors
and dystrophic cardiac calcinosis in mice, 173
Shwartzman reaction
indomethacin affecting, 7
Skin diseases
and enzymes in fluid from tuberculous lesions, 583
immunopathology of, 246
from pemphigus autoantibodies, 345
Skin test
delayed, 257
lepromin, 270
for reaginic antibody, 252
Smoking
and immunologic function in mice, 281
in pregnancy, affecting infants, 289
Spectrometry
with electron microscopy, in mycology, 23
Stetson CA, 1
Stevens–Johnson syndrome
immunopathology of, 247
Streptococci
and glomerulonephritis, 237

Testis
Michaelis–Gutmann bodies in malakoplakia tissue, 411
Thyroiditis
Hashimoto, animal model of, 285
Tibric acid
hepatic effects of, 435
Transfusion reactions
immunopathology of, 228

Transplants
facilitation or enhancement of, 266
and graft vs host reactions, 267, 760
and graft rejection, 263
renal, 265
glomerular antigens in, 71
and tumor induction in host-versus-graft disease, 675
Tuberculin reaction
enzymes in fluid from, 583
Tuberculosis
immunopathology of, 268
Tumors (*see* Neoplasia)

Vasculature
antibodies to endothelium, 228, 232
in experimental myocardial infarction, 57
immunopathology of polyarteritis nodosa, 240
periarteritis nodosa pathogenesis, 619
Viruses
delayed hypersensitivity to, 260
herpes simplex replication in leukemic leukocytes, 187
Vitamin E
mixture with nitroblue tetrazolium, affecting PMNs, 659

Wegener's granulomatosis
immunopathology of, 272
Wy-14,643
hepatic effects of, 435

X-ray microanalysis
of Michaelis–Gutmann bodies in malakoplakia, 411
in mycology, 23

Zirconium granuloma
immunopathology of, 272

Index of Authors

Volume 90, 1978

Ackman RG: *See* Schiefer B, Loew FM, Laxdal V, Prasad K, Forsyth G, Ackman RG, Olfert ED 551
Adler JH: *See* Ungar H, Adler JH 399
Ansel M: *See* Thibaut M, Ansel M, de Azevedo Carneiro J 23

CONTENTS FOR VOLUME 90, 1978

January 1978

1 Chandler Alton Stetson, 1921–1977
Lewis Thomas

7 The Effects of Indomethacin on the Generalized Shwartzman Reaction
Edward Lee Howes, Jr., Marion Tong Kwok, and Donald G. McKay

23 A Microanalysis Approach to Investigate Problems Encountered in Mycology
M. Thibaut, M. Ansel, and J. de Azevedo Carneiro

33 Isolation of Enzymatically Homogeneous Populations of Human Lymphocytes, Monocytes, and Granulocytes by Zonal Centrifugation
H. I. Zeya, E. Keku, L. R. DeChatelet, M. R. Cooper, and C. L. Spurr

49 Neuroendocrine Cells in Dysplastic Bronchi: Ultrastructural Observations and Quantitative Analysis of Secretory Granules and the Golgi Complex
Victor E. Gould, Aristomenis D. Yannopoulos, Sheldon C. Sommers, and John A. Terzakis

57 Experimental Myocardial Infarction in the Rat: Qualitative and Quantitative Changes During Pathologic Evolution
M. C. Fishbein, D. Maclean, and P. R. Maroko

71 The Immunohistopathology of Glomerular Antigens. II. The Glomerular Basement Membrane, Actomyosin, and Fibroblast Surface Antigens in Normal, Diseased, and Transplanted Human Kidneys
Jon I. Scheinman, Alfred J. Fish, Arthur J. Matas, and Alfred F. Michael

89 Acute Lung Injury Induced by Cadmium Aerosol. II. Free Airway Cell Response During Injury and Repair
S. Asvadi and J. A. Hayes

99 The Type 1 Alveolar Lining Cells of the Mammalian Lung. I. Isolation and Enrichment From Dissociated Adult Rabbit Lung
Paul Picciano and Robert M. Rosenbaum

123 The Type 1 Alveolar Lining Cells of the Mammalian Lung. II. *In Vitro* Identification Via the Cell Surface and Ultrastructure of Isolated Cells From Adult Rabbit Lung
Robert M. Rosenbaum and Paul Picciano

145 Effects of Carbon Tetrachloride on Rat Liver Plasmalemmal Calcium Adenosine Triphosphatase
Kenneth T. Izutsu and Edward A. Smuckler

159 A Comparison of the Migration Patterns of Normal and Malignant Cells in Two Assay Systems
J. Varani, W. Orr, and P. A. Ward

173 Dystrophic Cardiac Calcinosis in Mice: Genetic, Hormonal, and Dietary Influences
Gordon J. Eaton, R. Philip Custer, Frederic N. Johnson, and Karen T. Stabenow

187 Replication of Type I Herpes Simplex Virus in Primary Cultures of Hairy Cell Leukemic Leukocytes
Linda H. Pozner, Charles A. Daniels, John A. Cooper, Harvey Jay Cohen, Gerald L. Logue, and Byron P. Croker

201 A Stereologic Study of Glomerular Hypertrophy in the Subtotally Nephrectomized Rat
Stephen M. Shea, Jana Raskova, and Ashton B. Morrison

211 TEACHING MONOGRAPH: Immunopathology
Stewart Sell

281 **Animal Model of Human Disease:** Infectious and Neoplastic Respiratory Diseases Associated With Cigarette Smoking
P. G. Holt, D. Keast, and J. S. Mackenzie

285 **Animal Model of Human Disease:** Hashimoto's Thyroiditis
Sylvie Gosselin, Charles C. Capen, and Sharron L. Martin

February 1978

289 Relationship of Cigarette Smoking to Congenital Anomalies and Perinatal Death: A Prospective Study
Richard L. Naeye

295 Islet Cells as a Component of Pancreatic Ductal Neoplasms: I. Experimental Study: Ductular Cells, Including Islet Cell Precursors, as Primary Progenitor Cells of Tumors
Parviz Pour

317 The Influence of Maternal Immunization on the Antibody Response of the Offspring in Genetically High-Responding Rats
Donald V. Cramer, Thomas J. Gill III, and Gleness Knauer

325 Ultrastructural and Biochemical Aspects of Liver Mitochondria During Recovery From Ethanol-Induced Alterations: Experimental Evidence of Mitochondrial Division
Osvaldo R. Koch, Lidia L. Roatta de Conti, Luis Pacheco Bolaños, and Andrés O. M. Stoppani

345 Epidermal Acantholysis Induced *In Vitro* by Pemphigus Autoantibody: An Ultrastructural Study
Chung-Hong Hu, Beno Michel, and John R. Schiltz

363 Experimental Infarct Size as a Function of the Amount of Myocardium at Risk
James E. Lowe, Keith A. Reimer, and Robert B. Jennings

381 Spontaneous Amyloidosis in LLC Mice: Renal Effects
C. K. Chai

399 The Histogenesis of Hepatoma Occurring Spontaneously in a Strain of Sand Rats (*Psammomys obesus*)
H. Ungar and J. H. Adler

411 X-ray Microprobe Analysis of Michaelis–Gutmann Bodies in Human and Experimental Malakoplakia
Enikő Kuthy and Jenő Ormos

423 Ultrastructural Influences of Reperfusing Dog Myocardium With Calcium-Free Blood After Coronary Artery Occlusion
Muhammad Ashraf, Frank White, and Colin M. Bloor

435 The Hepatic Effects of Hypolipidemic Drugs (Clofibrate, Nafenopin, Tibric Acid, and Wy-14,643) on Hepatic Peroxisomes and Peroxisome-Associated Enzymes
David E. Moody and Janardan K. Reddy

SYMPOSIUM: Leukemias and Lymphomas

448 Introduction
Robert A. Good

451 Surface Markers in Leukemias and Lymphomas
Frederick P. Siegal, Daniel A. Filippa, and Benjamin Koziner

461 A Morphologic and Immunologic Surface Marker Study of 299 Cases of Non-Hodgkin Lymphomas and Related Leukemias
R. J. Lukes, C. R. Taylor, B. Chir, D. Phil, J. W. Parker, T. L. Lincoln, P. K. Pattengale, and B. H. Tindle

487 The Nature of Childhood Leukemia and Lymphoma
J. H. Kersey, K. J. Gajl-Peczalska, P. F. Coccia, and M. E. Nesbit

497 Suggested Models of Ecotaxopathy in Lymphoreticular Malignancy: A Role for Iron-Binding Proteins in the Control of Lymphoid Cell Migration
M. de Sousa, A. Smithyman, and C. Tan

521 Therapeutic Considerations in Acute Lymphocytic Leukemia
James F. Holland

529 **Animal Model of Human Disease:** Giardiasis
David P. Stevens and Ian C. Roberts-Thomson

533 **Animal Model of Human Disease:** Chédiak–Higashi Syndrome
David J. Prieur and Linda L. Collier

March 1978

537 Chemotactic Factor Influences on the Aggregation, Swelling, and Foreign Surface Adhesiveness of Human Leukocytes
J. T. O'Flaherty, D. L. Kreutzer, and P. A. Ward

551 Morphologic Effects of Dietary Plant and Animal Lipids Rich in Docosenoic Acids on Heart and Skeletal Muscle of Cynomolgus Monkeys
B. Schiefer, F. M. Loew, V. Laxdal, K. Prasad, G. Forsyth, R. G. Ackman, and E. D. Olfert

565 Loss of Oncogenicity and Concomitant Increased Immunogenicity of Murine Plasmacytoma Cell Lines
George D. Sorenson, Olive S. Pettengill, and Charles C. Cate

583 Extracellular Hydrolytic Enzymes of Rabbit Dermal Tuberculous Lesions and Tuberculin Reactions Collected in Skin Chambers
Mineharu Sugimoto, Arthur M. Dannenberg, Jr., Larry M. Wahl, Walter H. Ettinger, Jr., Annette T. Hastie, David C. Daniels, Christopher R. Thomas, and Lucie Demoulen-Brahy

609 Ultrastructural Changes in the Liver in Heatstroke
M. C. Kew, O. T. Minick, R. M. Bahu, R. J. Stein, and G. Kent

619 Immune Complexes of Hepatitis B Surface Antigen in the Pathogenesis of Periarteritis Nodosa: A Study of Seven Necropsy Cases
Thomasz Michalak

633 Structural Analysis of Hemopoiesis in S1/S1^d Anemic Mice
Matityahu Shaklai and Mehdi Tavassoli

645 Origin of Tubular Complexes Developing During Induction of Pancreatic Adenocarcinoma by 7,12-Dimethylbenz(a)anthracene
Dale E. Bockman, Owen Black, Jr., Luther R. Mills, and Paul D. Webster

659 Inhibition of Human Neutrophil Oxidative Metabolism and Degranulation *In Vitro* by Nitroblue Tetrazolium and Vitamin E
John E. Repine, Gundu Rao, Gregory D. Beall, and James G. White

675 Tumor Induction in Host-Versus-Graft Disease. I. Clinical and Pathologic Features
Eugene A. Cornelius

689 Nephrotoxic Nephritis in Rabbits: The Role of the Sympathetic Nervous System
Warren K. Bolton, Nuzhet O. Atuk, and Benjamin C. Sturgill

701 The Morphology of the Legionnaires' Disease Organism
Sheila Moriber Katz and Philip Nash

723 The Pathology of Feline G_{M2} Gangliosidosis
Linda Collins Cork, John F. Munnell, and Michael D. Lorenz

735 REVIEW ARTICLE: The Major Histocompatibility Complex—Comparison in the Mouse, Man, and the Rat
Thomas J. Gill III, Donald V. Cramer, and Heinz W. Kunz

779 **Animal Model of Human Disease:** Potter's Syndrome
Paul S. Symchych and Patricia Winchester

783 **Animal Model of Human Disease:** Bronchiolo-Alveolar Cell Carcinoma
T. A. Nobel and K. Perk

SUBJECT
AUTHOR
CONTENTS FOR VOLUME 91

Index of Subjects

Volume 91, 1978

Acid phosphatase
in renal lesions from tilorone, 355
Adenovirus
and simian pneumonia, 259
Adjuvant disease
lymphocyte migratory pathways in, 345
Alkaline phosphatase
in Dunn and Ridgway osteosarcoma culture media, 277
Anemia
sideroblastic, 376
Animal Models of Human Disease
angioimmunoblastic lymphadenopathy and immunoblastic sarcoma of B cells, 209
DNA damage from radiation in fish, 213
ochratoxicosis, 689
sensitivity to ozone, 409
sensitivity to PCBs, 405
trypanosomiasis, 693
α_1-Antitrypsin deficiency
and furazolidone-induced cardiomyopathy in turkeys, 531
Aorta
extracts inhibiting tumor growth, 1
Aspergillosis
and leukocyte damage to hyphal forms of fungi, 313
Aspirin
and prevention of Shwartzman reaction, 595
Autofluorescent particles
in uterine muscle cells, 155
Autoimmunity
and angioimmunoblastic lymphadenopathy with immunoblastic sarcoma of B cells, 209
and demyelination, 176
Autophagy
glucagon-induced, cycloheximide affecting, 49

Biphenyls
polychlorinated, Gunn rat sensitivity to, 405
Bladder
genetic factors in cancer, 641
reversible papillary hyperplasia, 33
Bone marrow
cutaneous graft-versus-host disease after transplants, 545
herpesvirus in adherent cells, 483
transplants affecting gray collie, 149
Bowman's capsule
embryonal hyperplasia of epithelium, 71
Breast cancer
genetic factors in, 638

Calcium
and motility of leukocytes, 581
Carbenicillin
platelet dysfunction from, 85
Carcinoembryonic antigen
and colorectal cancer, 662
Cardiomyopathy
furazolidone-induced, in turkeys, 531
Carotid body
paraganglia hyperplasia in hypoxemia, 497
Chromosome abnormalities
in neoplasia, 614
Coagulation
and prevention of Shwartzman reaction by aspirin, 595
Cobra venom factor
phospholipase A_2 in preparations of, 517
Colon
familial carcinoma syndromes, 637
Connective tissue
growth regulators in, 1
Copper deficiency
lung in, 413
Cycloheximide
and glucagon-induced autophagy, 49
Cytosiderosis, 374

Demyelinating diseases
autoimmune and virus-induced, 176
DNA
damage from radiation in fish, 213

Electron microscopy
of bladder hyperplasia, 33
of liver in halothane hepatitis, 11
of transmissible ileal hyperplasia, 451
Emphysema
experimental, 413
Encephalomyelitis
canine distemper, 188
experimental allergic, 185
postinfectious, 187
Endothelium
proliferation in inflammation, 229
Epstein-Barr virus
and oncogenesis, 653
Erythrocytes
changes from phorbol myristate acetate, 571

Ferritin, 364
biosynthesis of, 381
intracellular distribution of, 368

Fungus
leukocyte damage to hyphal forms, 313
ochratoxicosis, 689
Furazolidone
cardiomyopathy from, in turkeys, 531

Genetics
and neoplasia, 607
and siderosis, 388
Glucagon
and autophagy, cycloheximide affecting, 49
Glucose-6-PD deficiency
and sensitivity to ozone, 409
Gonadectomy
cellular changes from, 137
Graft-versus-host disease
cutaneous aspects of, 545
Gray collie syndrome
bone marrow transplants affecting, 149
Growth regulators
in connective tissue, 1
Guillain-Barré syndrome, 184
Gunn rats
sensitivity to PCBs, 405

Halothane
hepatitis from, 11
Hemosiderin, 366
as cell product, 372
Hepatitis
after halothane anesthesia, 11
mouse hepatitis virus, 178
Hepatocytes
glucagon-induced autophagy in, 49
Herpesvirus
in bone marrow adherent cells, 483
infections of mononuclear phagocytes, 119
and oncogenesis, 653
Histiocytoses
genetic factors in, 643
HLA antigens
and cancer susceptibility, 650
Hodgkin's disease
genetic factors in, 643, 647
Hyperplasia
embryonal, of Bowman's capsule epithelium, 71
ileal, transmissible, 433, 451
papillary, of bladder, reversible, 33
of paraganglia in hypoxemia, 497
Hypoxemia
paraganglia hyperplasia in, 497

Ileum
hyperplasia of, transmissible, 433, 451
Immune synovitis
in rabbits, 329
Immunodeficiency
and oncogenesis, 647, 663
Immunology
and renal vascular disease in scleroderma, 243
and transmissible ileal hyperplasia, 433
Inflammation
endothelial proliferation in, 229
and lymphocyte migratory pathways in adjuvant disease, 345
Intestines
familial colon carcinoma syndromes, 637
transmissible ileal hyperplasia, 433, 451
Iron storage
cytopathology of, 361

Jaundice
after halothane anesthesia, 11

Kidney
"end-stage" kidney studies, 71
genetic factors in cancer, 640
intracellular granules in potassium depletion, 299
lesions from tilorone, 355
vascular disease in scleroderma, 243

Lead poisoning
ferritin accumulation in, 379
Leukemia
genetic factors in 642
Leukocytes
damage to hyphal forms of fungi, 313
polymorphonuclear, motility of, 581
Leukoencephalopathy
progressive multifocal, 179
Leukopenia
and endothelial proliferation in inflammation, 229
Lipids
and motility of leukocytes, 581
Liver
glucagon-induced autophagy in hepatocytes, 49
hepatitis from halothane, 11
iron overload in rats, 377
Lung
alveolar macrophages affected by phorbol myristate acetate, 469
in copper deficiency, 413
genetic factors in cancer, 639
Lymphocytes
migratory pathways in adjuvant disease, 345
Lymphoproliferative disorders
medical history questionnaire for, 682
x-linked recessive syndrome, 653

Macrophages
alveolar, phorbol myristate acetate affecting, 469
peritoneal, peroxidase activity in, 107
Marek's disease, 183
Melanoma
familial, 625
Monocytes
herpesvirus infections of, 119
Mucormycosis
and leukocyte damage to hyphal forms of fungi, 313
Myelin
and demyelinating diseases, 176

Neoplasia
angioimmunoblastic lymphadenopathy and immunoblastic sarcoma of B cells, 209
and chromosomal aberrations, 614
Dunn and Ridgway osteosarcomas, 277
in familial syndromes, 623
genetics of, 607
incidence after neonatal thymectomy, 217
inhibition of growth by aortic extract, 1
multiple endocrine syndromes, 635
pancreatography in, 57
Nervous system
demyelinating diseases, 176
familial CNS tumors, 633
Neuritis
experimental allergic, 182
Neurofibromatosis
genetic factors in, 633
Neutropenia
in gray collie syndrome, marrow transplants affecting, 149
Neutrophils
damage to hyphal forms of fungi, 313

Ochratoxicosis
in animals, 689
Osteosarcoma
Dunn and Ridgway, 277
Ozone
increased sensitivity to, 409

Pancreatography
and tumor detection, 57
Panencephalitis
subacute sclerosing, 180
Paraganglia
hyperplasia in hypoxemia, 497
Peroxidase
in peritoneal macrophages, 107
Phagocytes
mononuclear, herpesvirus infections of, 119
Phagocytosis
and glucagon-induced autophagy, 49
Phorbol myristate acetate
affecting alveolar macrophages, 469
erythrocyte changes from, 571
Phospholipase A_2
in cobra venom preparations, 517
Platelets
dysfunction from carbenicillin and ticarcillin, 85
and prevention of Shwartzman reaction by aspirin, 595
Pneumonia
adenoviral, simian, 259
Polyneuritis
idiopathic, 184
Potassium
depletion of, and intracellular granules in kidney, 299

Radiation
and DNA damage in fish, 213
after thymectomy, and tumor incidence, 217

Scleroderma
renal vascular disease in, 243
Sclerosis
multiple, 189
Shwartzman reaction
prevention by aspirin, 595
Siderosis, 374
and genetics, 388
Sipple's syndrome, 635
Skin
genodermatoses with cancers, 625
in gratt-versus-host disease, 545
Synovitis
immune, in rabbits, 329

Thalassemia
iron overload in, 375
Theiler's virus myelitis, 187
Thymectomy
neonatal, and tumor incidence, 217
Thyroid gland
cellular changes from gonadectomy, 137
Ticarcillin
platelet dysfunction from, 85
Tilorone
renal lesions from, 355
Trypanosomiasis
animal model of, 693
Tumors (*see* Neoplasia)

Ulcer
of bladder, hyperplasia from, 33
Urinary tract
genetic factors in cancer, 640

reversible papillary hyperplasia of bladder, 33
Uterus
autofluorescent particles in cells, 155

Vagal paraganglia
hyperplasia in hypoxemia, 497
Vasculature
renal lesions in scleroderma, 243
Viruses
demyelinating diseases from, 176
herpesvirus in bone marrow adherent cells, 483
herpesvirus infections of monocytes, 119
oncogenesis from Epstein-Barr virus, 653
simian adenoviral pneumonia, 259

Werner's syndrome, 635

CONTENTS FOR VOLUME 91, 1978

APRIL 1978

1 Growth Regulators in Connective Tissue: Systemic Administration of an Aortic Extract Inhibits Tumor Growth in Mice
Reuben Eisenstein, Barbara Schumacher, Calvin Meineke, Branislav Matijevitch, and Klaus E. Kuettner

11 A Morphologic Study of Unexplained Hepatitis Following Halothane Anesthesia
Edward J. Wills and Bryan Walton

33 Reversible Papillary Hyperplasia of the Rat Urinary Bladder
Tomoyuki Shirai, Samuel M. Cohen, Shoji Fukushima, Motoo Hananouchi, and Nobuyuki Ito

49 Effect of Cycloheximide on Glucagon-Induced Autophagy: Quantitative Examinations on Hepatocytes in the Rat
H. J. Rumpelt and T. Weisbach

57 The Results of Pancreatography During Pancreatic Carcinogenesis
Michihito Takahashi and Parviz Pour

71 Studies on "End-Stage" Kidneys. II. Embryonal Hyperplasia of Bowman's Capsular Epithelium
M. D. Hughson, J. F. A. McManus, and G. R. Hennigar

85 Platelet Dysfunction Induced by Parenteral Carbenicillin and Ticarcillin: Studies of the Dose-Response Relationship and Mechanism of Action in Dogs
Gerhard J. Johnson, Gundu H. R. Rao, and James G. White

107 Differences in Peroxidase Localization of Rabbit Peritoneal Macrophages After Surface Adherence
Phyllis T. Bodel, Barbara A. Nichols, and Dorothy F. Bainton

119 Abortive and Productive Infections of Human Mononuclear Phagocytes by Type I Herpes Simplex Virus
C. A. Daniels, E. S. Kleinerman, and R. Snyderman

137 Effect of Gonadectomy on the Follicular Cell and Inclusions in Mitochondria of Rabbit Thyroid Gland
Doris R. Nathaniel

149 Recovery of Hair Coat Color in Gray Collie (Cyclic Neutropenia)-Normal Bone Marrow Transplant Chimeras
Tsu-Ju Yang

155 Autofluorescent Particles of Human Uterine Muscle Cells
Roger G. Gosden, Hal K. Hawkins, and Carole A. Gosden

175 REVIEW ARTICLE: Autoimmune and Virus-Induced Demyelinating Diseases
Peter W. Lampert

209 **Animal Model of Human Disease:** Angioimmunoblastic Lymphadenopathy, Immunoblastic Sarcoma of B Cells
George Yerganian, Henry J. Gagnon, and Anthony Battaglino

213 **Animal Model of Human Disease:** Identical Genetic Material as a Source for Studies of Cell Injury
R. B. Setlow, A. D. Woodhead, and R. W. Hart

MAY 1978

217 Effects of Whole-Body Irradiation on Neonatally Thymectomized Mice: Incidence of Benign and Malignant Tumors
Robert E. Anderson, John L. Howarth, and Gary M. Troup

229 Endothelial Proliferation in Inflammation. II. Autoradiographic Studies in X-Irradiated Leukopenic Rats After Thermal Injury to the Skin
Milton M. Sholley and Ramzi S. Cotran

243 Immunopathology of the Renal Vascular Lesion of Progressive Systemic Sclerosis (Scleroderma)
Don Lapenas, Gerald P. Rodnan, and Tito Cavallo

259 Simian Adenoviral Pneumonia
J. T. Boyce, W. E. Giddens, Jr., and M. Valerio

277 Osteogenesis and Chondrogenesis in Transplants of Dunn and Ridgway Osteosarcoma Cell Cultures
H. Hanamura and Marshall R. Urist

299 Intracellular Granules of the Renal Medulla in a Case of Potassium Depletion Due to Renal Potassium Wasting: Electron Microscopic Comparison With Renal Medullary Granules in the Potassium-Depleted Rat
Richard France, Mary E. Gray, William J. Stone, and Larry L. Swift

313 Damage to Hyphal Forms of Fungi by Human Leukocytes *In Vitro*: A Possible Host Defense Mechanism in Aspergillosis and Mucormycosis
Richard D. Diamond, Raymond Krzesicki, Brad Epstein, and Wellington Jao

329 Immune Synovitis in Rabbits: Effects of Differing Schedules for Intra-Articular Challenge With Antigen
M. B. Goldlust, L. C. Rich, and W. R. Brown

345 Lymphocyte Migratory Pathways in Adjuvant Disease. I. Distribution of ^{51}Cr-Labeled Thoracic Duct Lymph-Borne Cells
R. H. Kelly and V. Susan Harvey

355 Renal Lesions Induced by Tilorone and an Analog: Ultrastructure and Acid Phosphatase Study
William L. Thelmo and Seymour Levine

361 REVIEW ARTICLE: The Iron-Loaded Cell—The Cytopathology of Iron Storage
G. W. Richter

405 **Animal Model of Human Disease:** Increased Sensitivity to Polychlorinated Biphenyls
Edward J. Calabrese

409 **Animal Model of Human Disease:** Increased Sensitivity to Ozone
Edward J. Calabrese

JUNE 1978

413 The Lung of the Copper-Deficient Rat: A Model for Developmental Pulmonary Emphysema
Boyd L. O'Dell, Kaye H. Kilburn, Wayland N. McKenzie, and Ronald J. Thurston

433 Transmissible Ileal Hyperplasia of Hamsters. I. Histogenesis and Immunocytochemistry
Robert O. Jacoby

451 Transmissible Ileal Hyperplasia of Hamsters. II. Ultrastructure
Elizabeth A. Johnson and Robert O. Jacoby

469 The Effect of Phorbol Myristate Acetate on the Metabolism and Ultrastructure of Human Alveolar Macrophages
John R. Hoidal, John E. Repine, Gregory D. Beall, Fred L. Rasp, Jr., and James G. White

483 Expression of Herpesvirus in Adherent Cells Derived From Bone Marrow of Latently Infected Guinea Pigs
Aldo Gonzalez-Serva and G. D. Hsiung

497 Hyperplasia of Vagal and Carotid Body Paraganglia in Patients With Chronic Hypoxemia
Ernest E. Lack

517 Phospholipase A_2 Contamination of Cobra Venom Factor Preparations: Biologic Role in Complement-Dependent *In Vivo* Reactions and Inactivation With *p*-Bromophenacyl Bromide
James O. Shaw, Mary Fedarko Roberts, Richard J. Ulevitch, Peter Henson, and Edward A. Dennis

531 Furazolidone-Induced Cardiomyopathy in Turkeys: Association With a Relative α_1-Antitrypsin Deficiency
N. A. Staley, G. R. Noren, C. M. Bandt, and H. L. Sharp

545 Chronic Cutaneous Graft-Versus-Host Disease in Man
Howard M. Shulman, George E. Sale, Kenneth G. Lerner, Edward A. Barker, Paul L. Weiden, Keith Sullivan, Betty Gallucci, E. Donnall Thomas, and Rainer Storb

571 Fine Structural Alterations Induced in Erythrocytes by Phorbol Myristate Acetate
James G. White and John E. Repine

581 Motility of Human Polymorphonuclear Leukocytes: Roles of Hydroxy Fatty Acids, Other Lipids, and Cations
William S. Lynn and Chhabirani Mukherjee

595 Prevention by Aspirin of the Classic Generalized Shwartzman Reaction
Jean-Gilles Latour and François Bernard

607 REVIEW ARTICLE: Genetics of Neoplasia—Impact of Ecogenetics on Oncogenesis
David T. Purtilo, Louise Paquin, and Thomas Gindhart

689 **Animal Model of Human Disease:** Alimentary Toxic Aleukia, Fetal Brain Necrosis, and Renal Tubular Necrosis
George M. Szczech and Ronald D. Hood

693 **Animal Model of Human Disease:** Trypanosomiasis, Sleeping Sickness
Jack E. Moulton and David R. Stevens

AUTHOR
CONTENTS FOR VOLUME 92

Index of Subjects

Volume 92, 1978

A23187
and erythrocyte changes, 215
and neutrophil aggregation, 155
***Acanthamoeba* infections**
experimental, 733
Adenoma
oxyphil, functioning, of parathyroid gland, 691
Adenosine triphosphate
erythrocyte depletion after A23187, 215
in ischemic myocardium, 187
Alcoholic liver disease
and carcinoembryonic antigen in liver, 671
Amyloid
glomerular deposits in kala-azar, 85
Amyloidosis
in cyclic hematopoietic dogs, 23
Aneurysms
cerebral, 267
Angiosarcoma
hepatic, from vinyl chloride, thorotrast, and arsenic, 349
Animal Models of Human Disease
childhood T-cell lymphoma, 595
congenital hydrocephalus in monkeys, 317
cyclic hematopoietic dog as model for amyloidosis, 23
leprosy in armadillos, 813
Antigens
glomerular, in cultured cells, 125
Antiserums
anti-I-J affecting tumors, 491
immunofluorescent, for T cells, 619
Arachnoid
interface with dura, 53
Arsenic
hepatic angiosarcoma from, 349
Arteriovenous malformations
cerebral, 262
Arthritis
rheumatoid, collagen degradation in, 536
Aspirin
and hemostasis, 801
Atherosclerosis
and cerebral aneurysms, 273

Basal lamina
glomerular, platelet adhesion to, 99
Blood vessels (*see* Vasculature)
Bone
changes from 1,25-dihydroxyvitamin D_3, 459
Bone marrow
transplants of, and thymus changes in recipients, 173
Border zone
of acute myocardial infarction, 111

C cells
hyperplasia of, 35
Calcitonin
interaction with 1,25-dihydroxyvitamin D_3, 459
levels in medullary thyroid carcinoma, 35
Calcium
and erythrocyte rigidity, 215
levels after 1,25-dihydroxyvitamin D_3, 459
and neutrophil aggregation, 155
Carbenicillin
and thrombosis inhibition, 473
Carcinoembryonic antigen
in liver tissue, 671
Cells
aggregation of neutrophils, 155
glomerular cell in culture, 125
methylprednisolone affecting, in myocardial ischemia, 1
Cerebrovascular disease, 253
Chédiak–Higashi syndrome
and chemotactic activity of neutrophils, 745
and turnover of kidney β-glucuronidase, 755
Chemotactic factors
macrophage, in delayed hypersensitivity skin reactions, 241
Chemotaxis
neutrophil, in Chédiak–Higashi syndrome, 745
Chlorpromazine
effects in ischemia of liver, 713
Cirrhosis
and carcinoembryonic antigen in liver, 671
collagen degradation in, 546
collagenase activity in, 411
Clotting factors, 783
defects in, 797
Coagulation (*see* Hemostasis)
Collagen
degradation of, 515
in cirrhosis and fibrosis of liver, 546
in corneal ulcers, 533
deficient, 545
in epidermolysis bullosa, 539

excessive, 533
in osteopetrosis, 549
pathology of, 532
in periodontal disease, 539
in rheumatoid arthritis, 536
in scleroderma, 548
in tumors, 543
structure and biosynthesis of, 509
Collagenases, 516
activity in cirrhosis, 411
Complement
depletion affecting LPS-induced hypotension, 227
glomerular receptors for C3b, 147
COMT inhibitors
and Shwartzman reaction, 377
Connective tissue
anchoring fibrils in lung, 389
Cornea
ulcers of, collagen degradation in, 533
Coronary artery disease (*see* Myocardium, ischemia)
Corticosteroids
cellular effects in myocardial ischemia, 1
and severity of *Acanthamoeba* infections, 733
Cultures
of glomerular cells, 125
Cytochalasin B
and neutrophil aggregation, 155

Dexamethasone
affecting lymphocyte parallel tubular arrays, 611
Diabetes
transplanted islet tissue in, 653
1,25-Dihydroxyvitamin D_3
bone changes from, 459
Dura-arachnoid interface
fine structure of, 53

Electron microscopy
of dura-arachnoid interface, 53
of hamster glomerulus in kala-azar, 85
of myocardium after pulmonary embolism, 421
on nephropathia epidemica, 167
of subdural neomembranes, 69
Embolism
cerebral, 285
pulmonary, and myocardial ultrastructure, 421
Epidermolysis bullosa
collagen degradation in, 539
Erythrocytes
and hemostasis, 791
defects in, 801
prevention of membrane rigidity, 215
in subdural neomembranes, 73

Fat emboli
cerebral, 296
Fibrils
anchoring, in lung, 389
Fibrosis
of liver, collagen degradation in, 546
pulmonary, anchoring fibrils in, 389
Formyl-methionyl-leucyl-phenylalanine
and neutrophil aggregation, 155

Glomerular conditions (*see* Kidney)
β-Glucuronidase
renal turnover of, 755

Hematoma
subdural, neomembranes in, 53, 69
Hematopoiesis
cyclic, in dogs, 23
Hemorrhage
epidural, 311
intracerebral, 303
subarachnoid, 310
subdural, 310
Hemostasis, 773
abnormal, 795
clotting factors in, 783
defects in, 797
drugs affecting, 801
erythrocytes in, 791
defects in, 801
fibrinolytic system in, 785
inflammation in, 793
leukocytes in, 789
defects in, 799
mechanisms in, 777
platelets in, 787
defects in, 798
repair in, 794
vascular wall components in, 780
defects in, 796

Hepatitis
and carcinoembryonic antigen in liver, 671
Histaminase levels
in medullary thyroid carcinoma, 35
Hyaline membrane disease
surfactant prophylaxis in, 581
Hydrocephalus
congenital, in monkeys, 317
Hypersensitivity
delayed, and chemical mediation of skin reactions, 241
Hypotension
LPS-induced, complement depletion affecting, 227

Immunofluorescent antiserums
for T cells, 619

Infarction
cerebral, 283
myocardial (*see* Myocardium)
Influenza virus
and congenital hydrocephalus in monkeys, 317
Ischemia
and cerebrovascular occlusive disease, 275
of liver, and effects of chlorpromazine, 713
myocardial (*see* Myocardium)

Kala-azar
experimental, glomerular amyloid deposits in, 85
Kidney
feline glomerulonephritis with viral-induced neoplasms, 321
focal glomerular sclerosis in rat, 637
glomerular amyloid deposits in kala-azar, 85
glomerular cells in culture, 125
nephropathia epidemica, 167
platelet adhesion to glomerular basal lamina, 99
receptors for C3b on glomeruli, 147
tubulointerstitial lesions in CBA/J mice, 333
turnover of β-glucuronidase, 755

Langerhans islets
transplantation in diabetic rats, 653
Lanthanum
and neutrophil aggregation, 155
Leprosy
in armadillos, 813
Leukocytes
and hemostasis, 789
defects in, 799
Liebow, Averill A., 575
Lipopolysaccharide
bacterial, and hypotension induction, 227
Liver
angiosarcoma from vinyl chloride, thorotrast, and arsenic, 349
carcinoembryonic antigen in, 671
collagen degradation in fibrosis and cirrhosis, 546
collagenase activity in cirrhosis, 411
ischemia of, and effects of chlorpromazine, 713
Lung
anchoring fibrils in, 389
hyaline membrane disease in primates, 581
pulmonary embolism with myocardial changes, 421
Lymphocytes
parallel tubular arrays in, steroids affecting, 611
Lymphoma
T-cell, of childhood, 595
Lysosomes
in ischemic hearts, methylprednisolone affecting, 1

Macrophages
chemotactic factors in delayed hypersensitivity skin reactions, 241
Magnesium
and neutrophil aggregation, 155
Mesangial cells
proliferation in kala-azar, 85
Methylprednisolone
cellular effects in myocardial ischemia, 1
and severity of *Acanthamoeba* infections, 733
Myocardium
ischemia and infarction
border zone of, 111
and cellular effects of methylprednisolone, 1
lethal injury related to phosphate, 187
ultrastructure after pulmonary embolism, 421

Neomembranes, subdural, 69
and dura-arachnoid interface, 53
Neoplasia
anti-I-J antiserum affecting, 491
childhood T-cell lymphoma, 595
collagen degradation in, 543
hepatic angiosarcoma from vinyl chloride, thorotrast, and arsenic, 349
medullary thyroid carcinoma, 35
oxyphil adenoma, functioning, of parathyroid gland, 691
viral-induced, with feline glomerulonephritis, 321
Nephropathia epidemica
electron microscopy of, 167
Neutrophils
aggregation of, 155
chemotactic activity in Chédiak–Higashi syndrome, 745

Osteopetrosis
collagen degradation in, 549

Pancreas
transplanted islet tissue in diabetic rats, 653
Parathyroid gland
oxyphil adenoma of, functioning, 691
Parathyroid hormone
interaction with 1,25-dihydroxyvitamin D_3, 459

Periodontal disease
collagen degradation in, 539
Phosphate
and lethal injury in myocardial ischemia, 187
and neutrophil aggregation, 155
Phospholipid
metabolism in ischemia of liver, 713
Phosphorus
levels after 1,25-dihydroxyvitamin D_3, 459
Platelets
adhesion to basal lamina, 99
and hemostasis, 787
defects in, 798
Potassium
erythrocyte retention affecting membrane rigidity, 215
Purpura
thrombotic thrombocytopenic, encephalopathy in, 297
Pyrogallol
and Shwartzman reaction, 377

Rheumatoid arthritis
collagen degradation in, 536
Rocky Mountain spotted fever
cerebral vessels in, 294

Sarcoidosis
cerebral vessels in, 292
Scleroderma
collagen degradation in, 548
Sclerosis
focal glomerular, in rat, 637
Shwartzman reaction
COMT inhibitors affecting, 377
Skin reactions
and chemical mediation of delayed hypersensitivity, 241
Streptococcal vaccine
lymphoid thyroiditis from, 681
Sturge–Weber syndrome, 262
Subdural neomembranes, 69
and dura-arachnoid interface, 53
T cells
immunofluorescent antiserums to, 619
and lymphoma of childhood, 595
suppressor, inhibition with anti-I-J antiserum, 491
Tetracycline
and severity of *Acanthamoeba* infections, 733
Thorotrast
hepatic angiosarcoma from, 349
Thrombosis
cerebral, 285
inhibition by carbenicillin and ticarcillin, 473
Thymus
in recipients of bone marrow transplants, 173
Thyroid
medullary carcinoma of, 35
Thyroiditis
lymphoid, from streptococcal vaccine, 681
Ticarcillin
and thrombosis inhibition, 473
Transplantation
bone marrow, and thymus changes in recipients, 173
of islet tissue in diabetic rats, 653
Tropolone
and Shwartzman reaction, 377
Tuberculosis
cerebral vessels in, 292
Tumors (*see* Neoplasia)

Ulcers
corneal, collagen degradation in, 533

Vasculature
cerebrovascular disease, 253
in subdural neomembranes, 72
thrombosis inhibition, 473
vessel wall components in hemostasis, 779
defects in, 796
Vasculitis
intracranial, 290
Vinyl chloride
hepatic angiosarcoma from, 349
Viruses
congenital hydrocephalus in monkeys from influenza virus, 317
and neoplasms with feline glomerulonephritis, 321
Vitamin D
and bone changes from 1,25-dihydroxyvitamin D_3, 459

Water
erythrocyte retention affecting membrane rigidity, 215

CONTENTS FOR VOLUME 92, 1978

JULY 1978

1 Influence of Methylprednisolone on Ultrastructural and Cytochemical Changes During Myocardial Ischemia: Selective Effects on Various Cell Inclusions and Organelles Including Lysosomes
Robert S. Decker and Kern Wildenthal

23 The Cyclic Hematopoietic Dog: A Model for Spontaneous Secondary Amyloidosis: A Morphologic Study
E. A. Machado, R. S. Gregory, J. B. Jones, and R. D. Lange

35 Calcitonin and Histaminase in C-Cell Hyperplasia and Medullary Thyroid Carcinoma: A Light Microscopic and Immunohistochemical Study
Geoffrey Mendelsohn, Joseph C. Eggleston, William R. Weisburger, Donald S. Gann, and Stephen B. Baylin

53 The Origin of Subdural Neomembranes. I. Fine Structure of the Dura-Arachnoid Interface in Man
W. Schachenmayr and R. L. Friede

69 The Origin of Subdural Neomembranes. II. Fine Structure of Neomembranes
R. L. Friede and W. Schachenmayr

85 Relationship Between Glomerular Mesangial Cell Proliferation and Amyloid Deposition as Seen by Ultrastructural and Morphometric Analysis in Experimental Kala-Azar of the Hamster
M. I. Seixas Duarte, A. Sesso, and T. de Brito

99 Mechanisms of Platelet Adhesion to the Basal Lamina
Thomas W. Huang and Earl P. Benditt

111 The Histologic Border Zone of Acute Myocardial Infarction—Islands or Peninsulas?
Stephen M. Factor, Edmund H. Sonnenblick, and Edward S. Kirk

125 Human Glomerular Cells in Culture: Three Subcultural Cell Types Bearing Glomerular Antigens
Jon I. Scheinman and Alfred J. Fish

147 C3b Receptors on Human Glomeruli *In Vitro:* Loss in Culture
Jon I. Scheinman, Alfred J. Fish, Youngki Kim, and Alfred F. Michael

155 Substances Which Aggregate Neutrophils: Mechanism of Action
Joseph T. O'Flaherty, Henry J. Showell, Elmer L. Becker, and Peter A. Ward

167 Electron Microscopy of Nephropathia Epidemica: Renal Tubular Basement Membrane
Y. Collan, J. Lähdevirta, and E. J. Jokinen

173 The Thymus in Patients With Allogeneic Bone Marrow Transplants
William E. Beschorner, Grover M. Hutchins, Gerald J. Elfenbein, and George W. Santos

187 Relation Between High Energy Phosphate and Lethal Injury in Myocardial Ischemia in the Dog
Robert B. Jennings, Hal K. Hawkins, James E. Lowe, Mary L. Hill, Sherry Klotman, and Keith A. Reimer

215 Retention of Water and Potassium by Erythrocytes Prevents Calcium-Induced Membrane Rigidity
Kenneth L. Dreher, John W. Eaton, John F. Kuettner, Katia P. Breslawec, Perry L. Blackshear, Jr., and James G. White

227 The Effect of Complement Depletion on Bacterial Lipopolysaccharide (LPS)-Induced Hemodynamic and Hematologic Changes in the Rhesus Monkey
Richard J. Ulevitch, Charles G. Cochrane, Kathy Bangs, Clifford M. Herman, J. Raymond Fletcher, and Charles L. Rice

241 The Chemical Mediation of Delayed Hypersensitivity Skin Reactions. II. Characterization of a Macrophage-Chemotactic Factor From Bovine γ-Globulin–Induced Skin Reactions in Guinea Pigs
Keishi Ueda and Takeshi Kambara

253 TEACHING MONOGRAPH: Cerebrovascular Disease
Peter C. Burger and F. Stephen Vogel

317 **Animal Model of Human Disease:** Congenital Hydrocephalus
Henry F. Krous, Geoffrey Altshuler, W. T. London, A. E. Palmer, D. A. Fucillo, and J. L. Sever

AUGUST 1978

321 Characterization of Feline Glomerulonephritis Associated With Viral-Induced Hematopoietic Neoplasms
Alan D. Glick, Robert G. Horn, and Myron Holscher

333 Renal Tubulointerstitial Lesions in CBA/J Mice
Ulrich H. Rudofsky

349 Development of Hepatic Angiosarcoma in Man Induced by Vinyl Chloride, Thorotrast, and Arsenic: Comparison With Cases of Unknown Etiology
Hans Popper, Louis B. Thomas, Norman C. Telles, Henry Falk, and Irving J. Selikoff

377 Sensitization to the Generalized Shwartzman Reaction by Catechol-O-Methyltransferase Inhibitors
Jean-Gilles Latour and Claudette Léger-Gauthier

389 Anchoring Fibrils: A New Connective Tissue Structure in Fibrotic Lung Disease
Oichi Kawanami, Victor J. Ferrans, William C. Roberts, Ronald G. Crystal, and Jack D. Fulmer

411 Collagenase in Experimental Carbon Tetrachloride Cirrhosis of the Liver
Irmgard Montfort and Ruy Pérez-Tamayo

421 Ultrastructure of the Myocardium After Pulmonary Embolism: A Study in the Rat
Henri F. Cuénoud, Isabelle Joris, and Guido Majno

459 Ultrastructural Evaluation of the Effects of 1,25-Dihydroxyvitamin D_3 on Bone of Thyroparathyroidectomized Rats Fed a Low-Calcium Diet
Steven E. Weisbrode, Charles C. Capen, and Anthony W. Norman

473 Dose-Dependent Inhibition of Experimental Arterial Thrombosis by Carbenicillin and Ticarcillin
Bruce T. Lyman, Gerhard J. Johnson, and James G. White

491 Enhanced Syngeneic Tumor Destruction by *In Vivo* Inhibition of Suppressor T Cells Using Anti-I-J Alloantiserum
Linda L. Perry, Baruj Benacerraf, Robert T. McCluskey, and Mark Irwin Greene

507 REVIEW ARTICLE: Pathology of Collagen Degradation
Ruy Pérez-Tamayo

567 **Animal Model of Human Disease:** Hydrocephalus, Congenital Hydrocephalus
Richard W. Leech, Clayton N. Haugse, and Lee A. Christoferson

SEPTEMBER 1978

575 Averill A. Liebow, 1911–1978
Colin M. Bloor

581 Hyaline Membrane Disease: Effect of Surfactant Prophylaxis on Lung Morphology in Premature Primates
Ernest Cutz, Goran Enhörning, Bengt Robertson, W. Geoffrey Sherwood, and Donald E. Hill

595 An Animal Model for Childhood Convoluted T-Cell Lymphoma
Thomas W. Panke, Paulette C. Langlinais, Jerry Vriend, and Miles J. McCue

611 The Effect of Steroids on Peripheral Blood Lymphocytes Containing Parallel Tubular Arrays
Claire M. Payne and Lewis Glasser

619 Antiserums for Immunofluorescent Enumeration of Human T Lymphocytes Utilizing Fluoresceinated Staphylococcal Protein A
Edwin W. Ades, David S. Gordon, Don J. Phillips, Marjorie Hubbard, Charlotte M. Black, Linda H. Martin, Mariano F. LaVia, and Charles B. Reimer

637 Focal Glomerular Sclerosis in the Fawn-Hooded Rat
Jeffrey I. Kreisberg and Morris J. Karnovsky

653 The Fate of Intraportally Transplanted Islets in Diabetic Rats: A Morphologic and Immunohistochemical Study
James C. Grotting, Juan Rosai, Arthur J. Matas, Elizabeth M. Frenzel, William D. Payne, David E. R. Sutherland, and John S. Najarian

671 Carcinoembryonic Antigen in Normal and Diseased Liver Tissue
Michael A. Gerber and Swan N. Thung

681 Lymphoid Thyroiditis Following Immunization With Group A Streptococcal Vaccine
Nobuhiko Tonooka, Gerrie A. Leslie, Monte A. Greer, and Joan C. Olson

691 Functioning Oxyphil Adenoma of Parathyroid Gland: An Ultrastructural and Biochemical Study
Douglas H. McGregor, Luisa G. Lotuaco, M. S. Rao, and Luke L. H. Chu

713 Irreversible Ischemic Cell Injury: Prevention by Chlorpromazine of the Aggregation of the Intramembranous Particles of Rat Liver Plasma Membranes.
John L. Farber, Joseph T. Martin, and Kenneth R. Chien

733 Experimental *Acanthamoeba* Infections in Mice Pretreated With Methylprednisolone or Tetracycline
Sheldon M. Markowitz, Thomas Sobieski, A. Julio Martinez, and Richard J. Duma

745 The Chédiak-Higashi Syndrome: Evidence That Defective Leukotaxis is Primarily Due to an Impediment by Giant Granules
C. C. Clawson, J. G. White, and J. E. Repine

755 Turnover of Kidney β-Glucuronidase in Normal and Chédiak-Higashi (Beige) Mice
Richard T. Swank and E. J. Brandt

773 REVIEW ARTICLE: Normal and Abnormal Hemostasis—An Integrated View
Reginald G. Mason and Hussain I. Saba

813 **Animal Model of Human Disease:** Lepromatous Leprosy
Eleanor E. Storrs, Chapman H. Binford, and George Migaki

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 93

Index of Subjects

Volume 93, 1978

Actin
binding by protein in platelets, 433
neutrophil, dysfunction of, 241
Adrenalectomy
and thymic lesions in GvH reaction, 325
Anemia
megaloblastic, animal model of, 849
Angiotensin converting enzyme
and hypertension-associated arterial disease, 383
Animal Models of Human Disease
duodenal ulcer, 273
hypercalcemia of malignancy, 619
megaloblastic anemia, 849
Atherosclerosis
monoclonal nature of plaques in, 93
vascular endothelium in, 820
Autoimmunity
and tumor resistance, 469

Bacterial endotoxins
coagulation system interacting with, 550
in extrinsic pathway, 556
and Hageman factor activation, 552
in intrinsic pathway, 552
complement interactions with, 535
in vitro, 543
in vivo, 537
composition of, 529
effects on host mediation systems, 327
cellular systems, 560
humoral systems, 535
endothelial cells interacting with, 594
macrophage/monocyte interactions with, 586
mast cells interacting with, 597
in vitro, 599
in vivo, 598
neutrophil interactions with, 575
in vitro, 580
in vivo, 575
platelet interactions with, 560
in vitro, 568
in vivo, 561
structure related to biologic activity, 532
Basement membrane
synthesis in vascular endothelium, 826
Basophils
interaction with bacterial endotoxins, 597
Bladder
surface mucin of, 423
Bone marrow
lymphocyte circulation in, 623
Brain
macrophage migration through parenchyma of, 153
Breast carcinoma
selective cell carcinogenesis in, 655
Bronchiole
phospholipases in Clara cell of, 745

Carcinoma. *See* Neoplasia
Cardiomyopathy
NE-induced, insulin affecting, 339
Chediak-Higashi syndrome
neutrophils in, 242
Chemotactic factors
and motility of leukocytes, 369
and neutrophil desensitization, 693
for tumor cells, 405
Cholestasis
intrahepatic, norethandrolone-induced, 729
Clara cells
phospholipases in, 745
Coagulation
disseminated intravascular, endothelial injury in, 826
interaction of system with bacterial endotoxin, 550
Collagen
synthesis by vascular endothelium, 816
Complement
interactions with bacterial endotoxins, 535
Computer technique
for parathyroid parenchymal cell content, 793
Crystalline particles
transformation in alveolar macrophages, 27
Cytotoxic activity
of natural killer cells, 459

Duodenum
iron absorption cytochemistry in, 707
ulcer of, animal model of, 273

Electron microscopy
of basal laminas in lungs, 681
of duodenal iron absorption, 707
of lung tumors in hamsters, 45
of lungs in paraquat poisoning, 667
of pancreatic acinic cell carcinomas, 165
Endothelial cells
interaction with bacterial endotoxins, 594

Endothelium, vascular, 803
in atherosclerosis, 820
in bleeding disorders, 826
in disseminated intravascular coagulation, 826
functions of, 809
growth properties of, 817
histogenesis of, 804
in immune disorders, 831
in inflammation, 829
in vitro cells, 808
in neoplasia, 833
nonthrombogenic property of, 812, 823
platelet interaction with, 812, 824, 827
response to injury, 819
as selective barrier, 809
structure of, 805
synthetic and metabolic functions of, 816
Endotoxins. *See* Bacterial endotoxins
Enzymes
phospholipases in Clara cell, 745
serum angiotensin converting enzyme activity, 383
in vascular endothelium, 817
Estrogen
prostatic response to, 69

Factor VIII
in vascular endothelium, 816, 829
Friend leukemia virus
immunosuppression by, 501

Gentamicin
nephrotoxicity of, 137
Gold Headed Cane Award, 3
Graft-versus-host reactions
thymic lesions in, 325
Granuloma
in toxocariasis, 277

Hageman factor
activation by endotoxin, 552
Heart
insulin affecting NE-induced cardiomyopathy, 339
Hemochromatosis
thymus in, 661
Hemorrhage
from rattlesnake venom toxins, 201
Historical Events in Pathology
Arthur T. Hertig, 136
Hydrocarbons
and respiratory mucosa pathology, 311
Hypercalcemia
in malignancies, animal model of, 619
Hypertension
and arterial disease, serum ACE activity in, 383

Hypoxia
pulmonary vessels in, 353

Ileum
lymphocyte circulation in, 629
Illite crystals
transformation in alveolar macrophages, 27
Immune disorders
vascular endothelium in, 831
Immune system
and tumor growth, 447
Immunosuppression
tumor-induced, 499
Immunotherapy
in malignancies, 521
Inflammation
vascular endothelium in, 829
Insulin
and NE-induced cardiomyopathy, 339
Intestines
animal model of duodenal ulcer, 273
cytochemistry of iron absorption in, 707
lymphocyte circulation in ileum, 629
Iron
absorption of, cytochemistry of, 707
and pituitary siderosis, 295
and thymus in hemochromatosis, 661

Kidney
nephrotoxicity of gentamicin and tobramycin, 137

Leukemogenic murine viruses
recombinant origins of, 10
Leukocytes
ion role in motility of, 369
membrane and cytoskeletal function in, 221
Liver
lymphocyte circulation in, 629
norethandrolone-induced cholestasis in, 729
Lung
basal laminas in, 681
nitrosamine-induced tumors of, 45
in paraquat poisoning, 667
phagocytosis by alveolar cells, 27
phospholipases in Clara cell of bronchiole, 745
postnatal response to ozone and nitrogen dioxide, 183
vasculature affected by hypoxia, 353
Lymph nodes
lymphocyte circulation in, 623
Lymphocytes
BCG-sensitized, macrophage fusion factor from, 753
circulation in lymphoid organs, 623

Lymphokines
and hematogenous cell infiltrates, 117
and macrophage fusion factor, 753

Macrophages
alveolar, crystalline particles transformed in, 27
fusion factor from BCG-sensitized lymphocytes, 753
interactions with bacterial endotoxin, 586
migration through brain parenchyma, 153
role against tumor cells, 517
Malignancies. *See* Neoplasia
Mast cells
interactions with bacterial endotoxins, 597
Mastocytoma
immunosuppression by, 506
Monocytes
interactions with bacterial endotoxin, 586
Mucin
of bladder surface, 423

Neoplasia
and chemotactic response of tumor cells, 405
gastric, mixed endocrine, with hypergastrinemia, 53
hypercalcemia in, animal model of, 619
lung tumors from nitrosamines, 45
pancreatic acinic cell carcinomas, 165
and selective cell carcinogenesis, 655
and tumor immunity, 447
vascular endothelium in, 833
Nervous system, central
and macrophage migration through brain parenchyma, 153
Neutrophils
abnormalities of, 241
actin dysfunction in, 241
in Chediak-Higashi syndrome, 242
desensitization to chemotactic factors, 693

membrane and cytoskeletal function in, 221
microfilament distribution in, 232
microtubule assembly in, 234
oxidative metabolism in, 237
abnormal, 246
ultrastructure of, 223
Nitrogen dioxide
postnatal lung response to, 183
Nitrosamines
lung tumors from, ultrastructure of, 45
Norepinephrine
cardiomyopathy from, insulin affecting, 339
Norethandrolone
intrahepatic cholestasis from, 729

Oxygen deficiency
pulmonary vessels in, 353
Ozone
postnatal lung response to, 183

Pancreas
acinic cell carcinomas of, 165
Paraquat poisoning
pulmonary ultrastructure in, 667
Parathyroid glands
parenchymal cell content of, 793
Parke-Davis Lecture, 9
Phagocytosis
by cells of pulmonary alveoli, 27
Phospholipases
in Clara cell of bronchiole, 745
Pituitary gland
siderosis of, 295
Plasmacytoma
immunosuppression by, 505
Platelets
actin-binding protein in, 433
interaction with bacterial endotoxin, 560
interaction with vascular endothelium, 812, 824, 827
Potassium deficiency
morphologic abnormalities in, 103
Prostacyclin
in vascular endothelium, 814
Prostate
response to estrogen, 69
Protein
actin-binding, in platelets, 433
Pulmonary vessels
hypoxia affecting, 353
Purpura
vascular endothelium in, 827

Rattlesnake venom
hemorrhagic toxins from, 201
Recombinant origins
of leukemogenic murine viruses, 10
Respiratory mucosa
hydrocarbons affecting, 311
Respiratory syncytial virus
infection in cotton rats, 771

Selected Items From the History of Pathology
Friedrich Krukenberg, 792
John Hunter (1728–1793), 666

John Hunter (1728–1793), 728
William Harvey (1578–1657), 382
Siderosis
pituitary, 295
Spleen
lymphocyte circulation in, 623
Stewart HL
Gold Headed Cane Award, 3
Stomach
mixed endocrine tumors with hypergastrinemia, 53

Thrombus prevention
vascular endothelium in, 812, 823
Thymus
in graft-versus-host reactions, 325
in hemochromatosis, 661
lymphocyte circulation in, 629
Thyroid
capsule changes in hyperplasia, 639
Tobramycin
nephrotoxicity of, 137
Toxocariasis
granulomatous response in, 277
Tracheal mucosa
hydrocarbons affecting, 311
Transplantation antigens
in vascular endothelium, 832
Tumor immunity, 447. *See also* Neoplasia
and genetic control of resistance, 487
and immunosuppression with oncogenesis, 499
and 3-MC tumors in NZB mice, 469
mechanisms of, 449, 515
and natural killer cells, 459

Ulcer
duodenal, animal model of, 273

CONTENTS FOR VOLUME 93, 1978

October 1978

1 Presentation of the Gold Headed Cane to Harold Leroy Stewart: 1978
Kenneth M. Endicott

9 PARKE-DAVIS LECTURE: Recombinant Origins of Leukemogenic Murine Viruses
Richard A. Lerner

27 Phagocytosis by Cells of the Pulmonary Alveoli: Transformation of Crystalline Particles
J. P. Berry, P. Henoc, P. Galle

45 Ultrastructure of Nitrosoheptamethyleneimine-Induced Lung Tumors in European Hamsters
Hildegard Reznik-Schüller

53 Mixed Endocrine Gastric Tumors Associated With Hypergastrinemia of Antral Origin
L.-I. Larsson, J. F. Rehfeld, R. Stockbrügger, G. Blohme, I.-M. Schöön, G. Lundqvist, L. G. Kindblom, J. Säve-Söderberg, L. Grimelius, L. Olbe

69 Bipotentiality of Response to Sex Hormones by the Prostate of Castrated or Hypophysectomized Dogs: Direct Effects of Estrogen
Irwin Leav, Frederick B. Merk, Peter Ofner, Gary Goodrich, Paul W. L. Kwan, Bennett M. Stein, Madhabananda Sar, and Walter E. Stumpf

93 Clonal Characteristics in Layers of Human Atherosclerotic Plaques: A Study of the Selection Hypothesis of Monoclonality
Thomas A. Pearson, John M. Dillman, Kim Solez, and Robert H. Heptinstall

103 Morphologic Abnormalities in Potassium-Deficient Dogs
C. L. Tate, W. J. Bagdon, and D. L. Bokelman

117 A Comparison of the Hematogenous Cell Infiltrate Evoked by Lymphokine Injection With That of Delayed Hypersensitivity Reactions
M. F. Franco, R. H. Kelly, and J. Morley

136 Historical Events in Pathology: A Pathologist Looks at Normal and Abnormal Trophoblast
Arthur T. Hertig

137 Gentamicin and Tobramycin Nephrotoxicity: A Morphologic and Functional Comparison in the Rat
Donald C. Houghton, Charles E. Plamp III, Joan M. DeFehr, William M. Bennett, George Porter, and David Gilbert

153 Macrophage Migration Through the Brain Parenchyma to the Perivascular Space Following Particle Ingestion
Paul E. McKeever and J. Douglas Balentine

165 An Ultrastructural Study of Acinic Cell Carcinomas of the Canine Pancreas
Barbara F. Banner, Joseph Alroy, Bendicht U. Pauli, and James L. Carpenter

183 Cytologic Response of Postnatal Rat Lungs to O_3 or NO_2 Exposure
R. J. Stephens, M. F. Sloan, D. G. Groth, D. S. Negi, and K. D. Lunan

201 Hemorrhage Toxins From Rattlesnake (*Crotalus atrox*) Venom: Pathogenesis of Hemorrhage Induced by Three Purified Toxins
Charlotte L. Ownby, Jón Bjarnason, and Anthony T. Tu

219 REVIEW ARTICLE: Cell Biology of Leukocyte Abnormalities—Membrane and Cytoskeletal Function in Normal and Defective Cells
Janet M. Oliver

271 The American Association of Pathologists, Inc.: Annual Business Meeting

273 **Animal Model of Human Disease:** Duodenal Ulcer Disease
S. Szabo

November 1978

277 Development of the Granulomatous Response in Murine Toxocariasis: Initial Events
Stephen G. Kayes and John Adams Oaks

295 Pituitary Siderosis: A Histologic, Immunocytologic, and Ultrastructural Study
C. Bergeron and K. Kovacs

311 Pathologic Changes Induced in Respiratory Tract Mucosa by Polycyclic Hydrocarbons of Differing Carcinogenic Activity
D. C. Topping, B. C. Pal, D. H. Martin, F. R. Nelson, and P. Nettesheim

325 Thymic Epithelial Injury in Graft-Versus-Host Reactions Following Adrenalectomy
Thomas A. Seemayer, Wayne S. Lapp, and Robert P. Bolande

339 Effects of Insulin on Experimental Catecholamine Cardiomyopathy
S. Evans Downing and John C. Lee

353 Pulmonary Arteries and Veins in Experimental Hypoxia: An Ultrastructural Study
K. P. Dingemans and C. A. Wagenvoort

369 Role of Ions and Extracellular Protein in Leukocyte Motility and Membrane Ruffling
Chhabirani Mukherjee and William S. Lynn

382 Selected Items From the History of Pathology: William Harvey (1578–1657)
John Crellin

383 Serum Angiotensin Converting Enzyme Activity and the Capacity to Develop Hypertension-Associated Arterial Disease: Studies During the Induction Phase of One-Kidney Perinephritis Hypertension in Rabbits
Wallace G. Campbell, Jr., John A. Donohue, and Lea H. Duket

405 Characteristics of the Chemotactic Response of Neoplastic Cells to a Factor Derived From the Fifth Component of Complement
William Orr, James Varani, and Peter A. Ward

423 Bladder Surface Mucin: Its Antibacterial Effect Against Various Bacterial Species
C. Lowell Parsons and S. Grant Mulholland

433 An Actin-Binding Protein in Human Platelets: Interactions With α-Actinin on Gelatin of Actin and the Influence of Cytochalasin B
J. V. Schollmeyer, G. H. R. Rao, and J. G. White

447 SYMPOSIUM: Tumor Immunity

448 Introduction
Stanley Cohen and Benjamin V. Siegel

449 Mechanisms of Tumor Immunity: An Overview
Stanley Cohen and Marion C. Cohen

459 Natural Killer Cells: *In Vitro* and *In Vivo*
Christopher S. Henney, Daniel Tracey, Jeannine M. Durdik, and Gary Klimpel

469 Autoimmunity and Tumor Resistance: 3-Methylcholanthrene Tumorigenesis in New Zealand Black Mice
Jane I. Morton, Benjamin V. Siegel, and Richard D. Moore

487 Genetic Control of Resistance to Tumors
Julia M. Phillips-Quagliata and Mary Clare Walker

499 Tumor-Induced Immunosuppression
Herman Friedman, Steven Specter, Motohiro Watanabe, and Shui-Hu Pan

515 Tumor Immunity: An Overview
Benjamin V. Siegel

525 REVIEW ARTICLE: The Effects of Bacterial Endotoxins on Host Mediation Systems
D. C. Morrison and R. J. Ulevitch

619 **Animal Model of Human Disease:** Hypercalcemia of Malignancy
D. M. Young, J. M. Ward, and David J. Prieur

December 1978

623 Circulation and Migration of Small Blood Lymphocytes in the Rat: I. Kinetics of Lymphocyte Circulation in the Lymphoid Organs
N. D. Schnuda

639 Thyroid Capsule Changes During the Development of Thyroid Hyperplasia in the Rat
Seymour H. Wollman and Jean Pierre Herveg

655 A Proposed Selective Cell Carcinogenesis in Mammary Tumors
Thomas I. King, Tariq M. Murad, and Samuel Waksal

661 The Thymus in Hemochromatosis
Vincent J. Vigorita and Grover M. Hutchins

666 Selected Items From the History of Pathology: John Hunter (1728–1793)
John Crellin

667 Pulmonary Ultrastructure of the Late Aspects of Human Paraquat Poisoning
Lyle C. Dearden, R. D. Fairshter, D. M. McRae, W. R. Smith, F. L. Clauser, and A. F. Wilson

681 Composite Epithelial and Endothelial Basal Laminas in Human Lungs: A Structural Basis for Their Separation and Apposition in Reaction to Injury
Thomas W. Huang

693 Desensitization of the Neutrophil Aggregation Response to Chemotactic Factors
Joseph T. O'Flaherty, Donald L. Kreutzer, Henry S. Showell, Elmer L. Becker, and Peter A. Ward

707 Ultrastructural Cytochemistry of Iron Absorption
R. T. Parmley, J. C. Barton, M. E. Conrad, and R. L. Austin

728 Selected Items From the History of Pathology: John Hunter (1728–1793)
John Crellin

729 Evidence for Microfilament Involvement in Norethandrolone-Induced Intrahepatic Cholestasis
M. James Phillips, Masaya Oda, and Kazuo Funatsu

745 Ultrastructural Localization of Phospholipases in the Clara Cell of the Rat Bronchiole
Kokichi Yoneda

753 Macrophage Fusion Factor Elicited From BGG-Sensitized Lymphocytes
Alwin H. Warfel and John W. Hadden

771 The Pathogenesis of Respiratory Syncytial Virus Infection in Cotton Rats
Gregory A. Prince, A. Bennett Jenson, Robert L. Horswood, Ena Camargo, and Robert M. Chanock

792 Selected Items From the History of Pathology: Friedrich Krukenberg and His Tumor
William B. Ober

793 Estimation of Parenchymal Cell Content of Human Parathyroid Glands Using the Image Analyzing Computer Technique
L. Grimelius, G. Åkerström, H. Johansson, and H. Lundqvist

801 REVIEW ARTICLE: The Vascular Endothelium—Pathobiologic Significance
Gudmundur Thorgeirsson and Abel Lazzarini Robertson, Jr.

849 **Animal Model of Human Disease:** Megaloblastic Anemia
Irving Dardick, George Setterfield, and Rose Sheinin

853 Index of Subjects, Volume 93

858 Index of Authors, Volume 93
